Re: Statement of Support for Prof. Christopher Forth's right to teach the course, Angry White Men Studies.

Senates' Statement on Forth's class:

We, members of the Faculty, Staff and Student Senates, support KU Professor Christopher Forth's right to teach the course, Angry White Men Studies. Not only does Professor Forth have the academic freedom to teach such a course, clearly grounded in rigorous historical, sociological and inter-disciplinary scholarship, we stand by the fact that students at the University of Kansas will benefit from the knowledge derived from the academic material used for the course.
