

Resolution Objecting to Allowing Concealed Weapons on KU Campuses December 1, 2016

The Faculty Senate of the University of Kansas is composed of the elected representatives of faculty at the University and is charged with acting in behalf of the faculty.

Eighty-two percent of the KU staff, students, and faculty who participated in the January 2016 Docking Institute survey expressed opposition to allowing concealed weapons on campus.¹

Moreover, current research indicates that the net effect of campus carry on the safety of college students, faculty, and staff is likely to be more deaths, more nonfatal gunshot wounds, and more threats with a firearm that are traumatizing to victims.²

Therefore, the Faculty Senate wishes to express its opposition, in the strongest possible terms, to allowing concealed weapons on the University of Kansas campuses.

On behalf of our constituency, we urge the Kansas State Legislature (1.) to respect local control by continuing the exemption to the Personal and Family Protection Act and (2.) to allow our campus communities to choose whether or not weapons are allowed on our KU campuses.
