Committee Review Results

Policy on Restricted Research

RRID 20.723

Title of project: “ __Experimental Study of Oil Swelling with Ethane and Propane__ ”

Name of principal investigator or project director:

PI: Li, Xiaoli, Assistant Professor, Chemical & Petroleum Engineering

Source or sources of funds for support of project:

University of North Dakota

Requested exemption for:

- “Dual use” science or technology that has primarily harmful consequences for human beings
- Restrictions on Research:
 - Extended delay of Publication
 - Total or Indefinite Delay of Publication
 - Limitation of access by foreign scholars, faculty, or staff
 - Restriction of access to campus facilities

Action by the Restricted Research Committee:

- APPROVAL DISAPPROVAL
- Involves unique University capabilities.
- Has very substantial scholarly or educational benefits.
- Constitutes a very substantial public service.

Justification:

Chair: The committee voted in favor of approval. We viewed the research as having substantial educational benefits for undergrads here at KU. We all agreed that students should be informed up-front of the restrictions on publication, however, as a condition of out acceptance..

Date of Referral: 01/21/2020
Date of Approval: 1/30/2020

Committee:
Gene Rankey, Chair
Vincent Barker
